Dark Field Microspcopy
Live Blood Cell Research
in the Energy Enhancement System

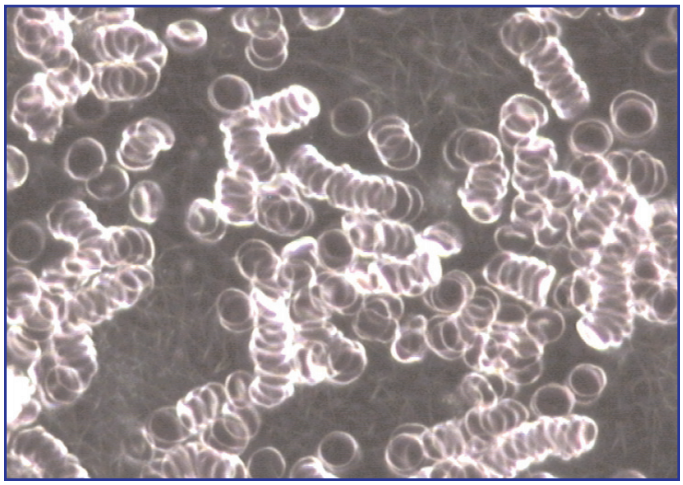

In November 2004, we funded a four week research project looking at the effects of the EES on live blood cells. 36 men and women in Hawaii participated. Dr. Alvita Soleil, Doctor of Oriental Medicine and Director of Kohala Health and Wellness Center, spearheaded the blood and urine analysis.

Just looking at these photos, regardless of your knowledge of blood, you can see that something miraculous is occurring!

Blood Before

Blood After 1 hour in EES
